

## EVERLITE LED LIGHTS

Ideal for camping, hunting, fishing and other outdoor activities, as well as a convenient light during emergencies or on extended trips.

EL6

### Compact EverLite

The eco-friendly solar compact EverLite gives over 12 hours of LED light from only six hours of charging, with powerful 8-bulb lamp. Portable, bug-free light for your car, camping trips, or emergency lighting. Plug in the 5" x 5" solar panel for easy charging. Includes a 3-way switch (on-off-auto) where auto turns on LEDs in darkness.

wt. 20oz.

EL8

### Solar Headlamp

The eco-friendly solar 5-LED headlamp takes only six hours to recharge and shines for over 12 hours. Can operate in power-saving mode for at least 24 hours. There is also a strobe mode and a charge indicator! Perfect for the outdoor enthusiast.

wt. 3.4oz. (light only)

EL9

### Solar Clip Light

The eco-friendly 3-LED solar clip light recharges itself! One hour of sunlight offers 1 hour of powerful light. Slide it onto any baseball cap or visor for convenient hands-free light. Great for use during a power outage or when fixing a flat tire at night.

wt. 1.9oz.

## EVERLITE ACCESSORIES

All accessories work with any of our solar light products.

Use the EA1 (12V) or EA6 (USB) with your Everlite to charge cell phones, MP3 players, iPods, GPS locators or other hand-held electronics.

EA1

### 12V Cell Phone Converter

12 VDC Cell Phone Converter plugs into your Everlite and provides 12V output for any car charger.

\* May not fully charge all devices.

EA3

### 120/240 VAC Wall Charger

120/240 VAC wall charger (50/60 Hz) plugs into wall socket to provide a quick charge for any of your Everlites.

EA6

### USB Converter

Plug in your Everlite to get female USB port for charging iPods, MP3s, GPS, digital cameras, etc.

\* May not fully charge all devices.
